

# Call For Proposals

## OLA Technology Conference Presented by the Information Technology Roundtable

We are looking for proposals on two tracks: one on technology for helping patrons and one on helping library staff. We especially want people to present at one of three levels of expertise: introductory, intermediate, and advanced. We will consider presentations covering Web 2.0, proprietary, and open source technology options. Areas of particular interest include security, budget friendly solutions, and collaborative technology.

Join us at the Tom Steed Center of Rose State College on August 6, 2010.

Send proposals to [itrt@oklibs.org](mailto:itrt@oklibs.org).

### Highlights

- ◆ Websites
- ◆ Open Source Software
- ◆ Security
- ◆ Online Collaboration
- ◆ And more...
